Howland Wood, Curator
American Numismatic Society
Broadway at 156th Street
New York, N. Y.

Dear Mr. Wood:

Under separate cover I have sent a couple of medals for the A. N. S. collection, not knowing whether they have them or not. If they do have them, then the pair are for yourself. If they do not have them, and you do not have them, and will let me know I will send another pair along for your own collection.

Wishing you the seasons greetings, and assuring you of my appreciation of your good work, I am

Yours respectfully,

Ed M. Lee

Glendale, California.

Dear Mr. Lee:

The two medals with the portraits
of Mr. Newcomb and Mr. Heaton came to hand. We
did not have either of them and consequently were
most glad to get them. Has the Club issued any
more since then? I beg to remain

Very sincerely yours,

HW:JG

Mr. Howland Wood
% Am. Numismatic Society
Broadway at 156th Sts.
New York, N. Y.

Dear Mr. Wood:

Your letter received and I am glad the medals could be used. I am sending another pair for your own personal collection. The club has not issued any since these first two. There was a small token issued one year when the club met at a special meeting of the Glendale group out here in Glendale. Do you have this one? Might be able to obtain one for the Society if they wish it.

Also please find enclosed dues for 1935 which I am sending with this letter.

Yours respectfully,

Ed M Lee

January 14, 1935.

Mr. Ed M. Lee
623 Security Building
Glendale, California.

Dear Mr. Lee:

I beg to thank you again for the other two medals you sent on to me personally. I appreciate your doing this. I cannot locate in our collection the other small token you speak of issued at the special meeting in Glendale. I have turned your dues over to the Treasurer and you probably have the receipt by this time.

Very truly yours,

HW:JG

Dear Mr. Lee:

Mr. Wyman, who is an old friend of mine, has just written me and mentioned that you were wondering if sometimes when you had attribution difficulties you could call upon us. We would be glad to help you out to the best of our ability. A few pieces now and then we would make no charge for but if there were a number of pieces which involved quite a lot of work we would have to make some sort of a charge.

Very truly yours,

HW: JG

Dear Mr. Wood:

Many thanks for your very kind letter just received and I appreciate your offer. It was nice of Mr. Wyman to write. My son and I spent several enjoyable days in San Francisco a month ago attending the Far Western Numismatic Conference and renewed old acquaintances including Mr. Wyman.

I have nothing in mind right at the present writing to inquire about, but will be pleased to forward material from time to time as information is wanted.

Again thanking you, and with best wishes, I am

Yours respectfully,

Ed M. Lee

New York City, N. Y.

Dear Mr. Wood:

A party came into the office the other day with a coin, a rubbing of which is enclosed herewith. As you will notice it was a perfectly flat copper disc except for the incused pipe. The history so far as we can determine is that it was found about 1875 at the lower end of New Brighton Peninsula on Beaver River about three miles from where it empties into the Ohio River. This was the location of a fort, possibly Fort McIntosh or Fort Madison.

I do not know if it has any significance or not but thought I would write and see if you had any information regarding a piece of this kind. The work seems to be very well done and no doubt was stamped into the coin. It does not look as though it had been tooled in.

While writing I would also like to enquire if you have ever run across a large printed cardboard sheet with facsimiles of the various types of continental currency. The paper is somewhat yellowish, perhaps from age and may have been made in Europe. I cannot seem to find any information about it and am wondering if you might have run across it.

Thanking you in advance for any information, I
am

Sincerely yours,

Ed M Lee

Dear Sir:

I am sorry that I cannot help you very much on either of your questions. I really do not think there is any significance whatever in the copper piece with a pipe stamped on it. I have never seen such a piece mentioned and there is not enough to it to try to build up any significance. As for the types of paper money several books in the past had large folding sheets showing various types. I have before me a book History of the Issues of Paper Money in the American Colonies etc., printed in St. Louis in 1851 by a man named Hart, that has a sheet pretty nearly two by three feet showing fourteen different bills beautifully lithographed, and I have seen other such books so probably the sheet you mention was made for just such a purpose.

Very truly yours,

HW:JG
